Verbatim

Battery Cover

Slide the battery cover upwards to open. The Verbatim Mobile Wireless Keyboard uses two AA batteries. Typical AA batteries will give you 30 hours of continuous operation before they need to be replaced.

The keyboard will automatically go into power saving mode if it is not used for 70 seconds. To turn the keyboard on or power saving mode, simply press the keyboard's power button to wake it up.

Connect to the keyboard

Follow these steps to connect the keyboard to a device. The keyboard is compatible with Windows, Mac OS, Linux, and Android. The keyboard is compatible with Bluetooth 4.0 and 2.4 GHz. The keyboard is compatible with Windows, Mac OS, Linux, and Android.

Power Switch

Slide the power switch to the "On" position. The keyboard will be powered on.

Bluetooth Pairing Button

Press the Bluetooth pairing button to enter pairing mode. The keyboard will be in pairing mode for 30 seconds.

Power Warning Light

The power warning light will turn on when the battery level is low. The keyboard will be in power saving mode when the light is on.

Bluetooth Indicator Light

The Bluetooth indicator light will turn on when the keyboard is connected to a device. The keyboard will be in pairing mode when the light is on.

Range Lock

Press the range lock button to lock the keyboard to the device. The keyboard will be in range lock mode when the light is on.
