ICON Interpretation

Personal Data Icon

The user can set his/her personal data, i.e. gender, age and constellation in this icon.

How To Set Your Personal Data ??

Press the key [ENTER / CONFIRM] to activate the gender setting mode. The following screen
will be seen.

Gender : Male ( )   Female ( )

The user can select his/her gender by using the keys [↑], [↓], [←], [→] and then press
[ENTER / CONFIRM] key to confirm, or use the key [CANCEL / EXIT / READ] to delete the
opposite sex that will automatically confirm too.

Age : Over 25 yesrs old (↑25) Under 25 yesrs old (↓25)

After gender is set, press [↓] key once to enter Age page. Press [ENTER / CONFIRM] key to activate the age setting mode. Use the keys [↑], [↓], [←], [→] to select your age, and then press [ENTER / CONFIRM] key to confirm, or use the key [CANCEL / EXIT / READ] to delete the unsuitable ones that will automatically confirm too.

Constellation : There are total four pages to show the constellation.

(1st page) Capricorn Aquarius Pisces

(2nd page) Aries Taurus Gemini

(3rd page) Cancer Leo Virgo

(4th page) Libra Scorpio Sagittarius

After age is set, press [↓] key once to enter the Constellation page. Press [ENTER / CONFIRM] key to activate the constellation selection mode. Use the [←], [→] keys to move left and right and [↑], [↓] keys to turn the pages to select your own. Then press [ENTER / CONFIRM] key to confirm your selection.
If wrong selection is done, press [ENTER / CONFIRM] key once again to return to the constellation selection mode. Then repeat the previous steps to select your own again.
After finished, press the key [→] to forward to the Pal Selection Icon

Pal Selection Icon

After personal data is set, press the key [→] to enter this icon. Press [ENTER / CONFIRM] key to activate the mode. Use [↑], [↓], [←], [→] keys to select the kind of pal you want. (G = General , S = Special). Then press [ENTER / CONFIRM] key to enter the G or S selection mode.

If G mode is selected, there will three images appeared on the screen. Use the keys [←], [→] to select the expected pal, and then press [ENTER / CONFIRM] key to confirm.

Male Female All (i.e. all people)

Note : If **G** mode is used, any incoming message with the same sex as you selected will be received.

If S mode is selected, there will be a female image shown on the screen. Press [ENTER / CONFIRM] key to confirm. If you want the male to be your pal, press [ENTER / CONFIRM] key again. A male and female image will be shown. Use the keys [←], [→] to select the sex, and then press the key [ENTER / CONFIRM] to confirm.

Note : If S mode is used, only the message with the exact same gender, age and constellation as yours will be received (except chatting message).

After selection of expected pal, press the key [↓] to enter the age page. In this mode, you can select the ideal age of your pal by using the same step as used in S selection above. Then press the key [↓] to enter the constellation page. In this mode, you can select the constellation for your expected pal. Press the key [ENTER / CONFIRM] to activate the constellation selection mode. Use the [↑], [↓] keys to turn the pages and [←], [→] keys to move left and right to select the required. Then press [ENTER / CONFIRM] key to confirm.

After all selection is done, press once the key [CANCEL / EXIT / READ] to exit the mode. Press [→] key to forward to Outgoing Message Edit Icon.

Outgoing Message Edit Icon

In this mode, the user can edit message or input his/her personal information such as name, address, email address ... etc. with maximum 35 characters. These 35 characters will be displayed in four pages of screen. The first three pages will show 9 characters while the fourth page will show 8 characters only.

Firstly press the key [ENTER / CONFIRM] to activate the editing mode. Press again the same key to enter the edit standby mode and start the editing. Use the keys [←], [→] to select the required character from the character selection page. If the character is not available in the page, use the keys [↑], [↓] to turn the next page to get it. After the required character is gotten, press the key [ENTER / CONFIRM] to confirm. Then do the same steps to complete the editing. If correction is required, just select and put the new character on the same position of the old character and press the key [ENTER / CONFIRM] to confirm and replace.

There are total six character selection pages where total 57 basic characters and 3 control characters are filed.

[57 basic characters] –

```
A B C D E F G H I J
K L M N O P Q R S T
U V W X Y Z 0 1 2 3
4 5 6 7 8 9   ? ! ,
. : - _ / \ @
' [ à ê É ê î 5 ô û
```

[3 control characters] —

**+** : Insert a space between two characters on screen.

+ : Delete one character on screen.
