

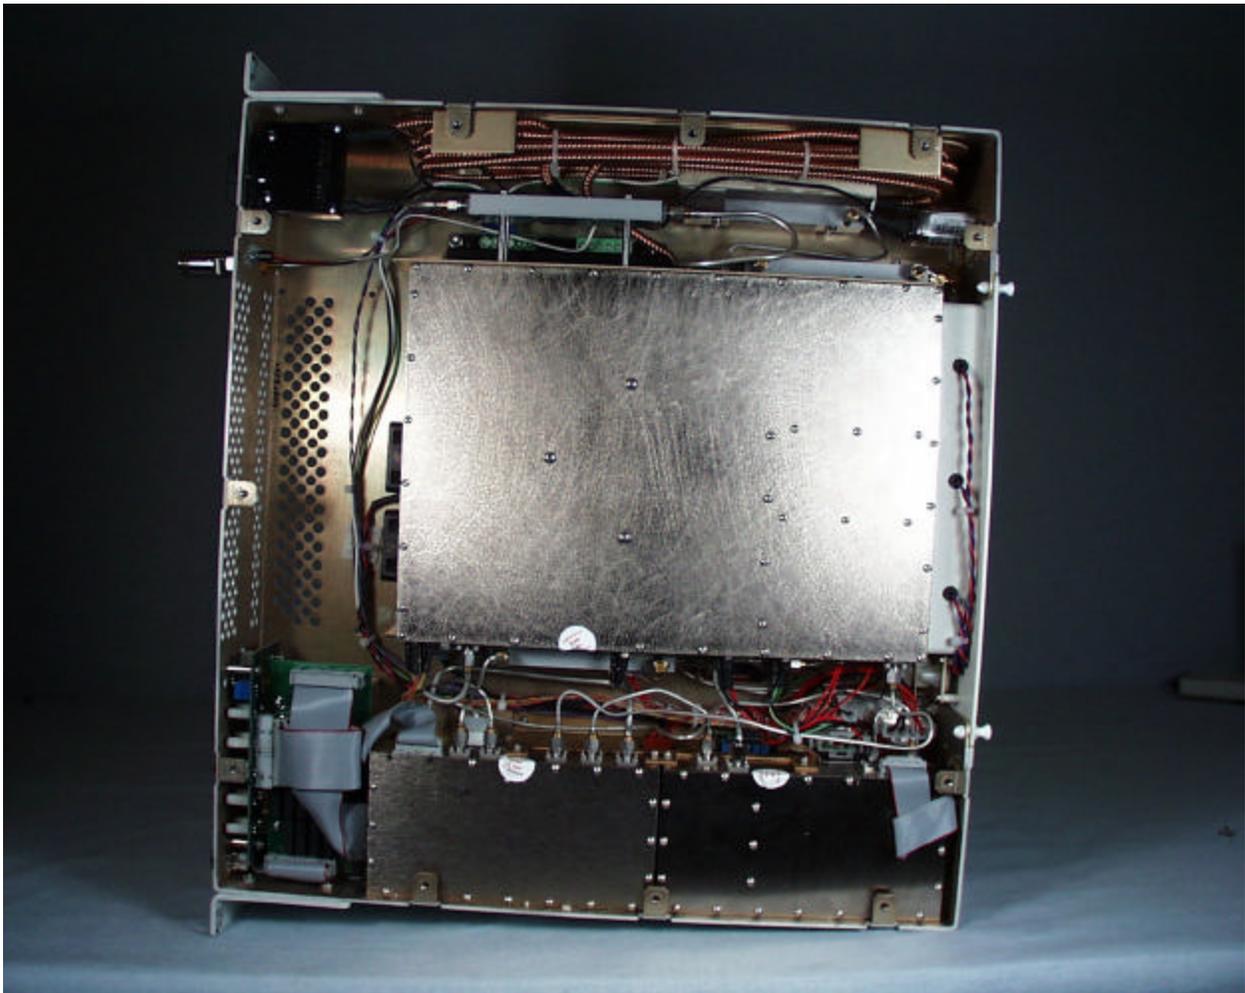

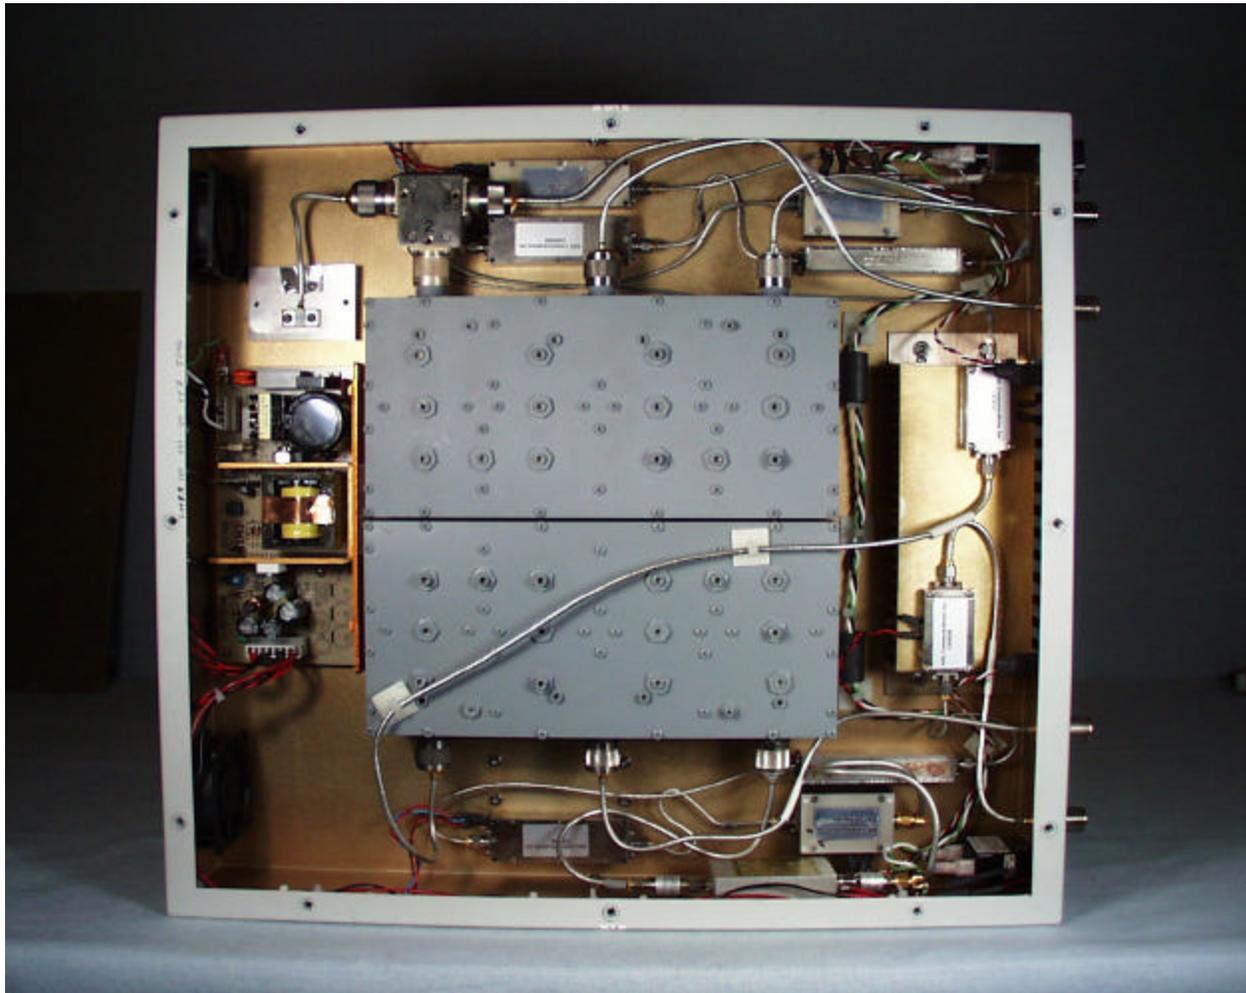

Exhibit 9: Internal Photographs

The MPC 30 is comprised of two previously certified units that are purchased from AML Communications and repackaged as the RF CELLutions, LLC Model MPC 30. The MPC 30 consists of a AML Bi-Directional Amplifier (BDA) and a Multicarrier Linear Amplifier, previously certified under the following FCC ID numbers: BDA (LX7BD09002) and Multicarrier Linear Amplifier (LX7PA0870). RF CELLutions, LLC does not make any internal changes to either unit; therefore, the internal photographs are the same as filed with the above mention FCC ID numbers. Enclosed below are the inside view of the BDA and Multicarrier Linear Amplifier.
