Introduction

This document provides important information regarding safety, regulatory compliance, and operation of the Wonderware SRM-1 USB Portable RFID Module. The Module attaches to a host computer to provide read/write access to Wonderware ST-1 tags and other tags employing 134 kHz TIRIS MPT technology. For application-specific information refer to the Wonderware Mobile IntelTrac User Guide or other documentation appropriate to the software application being used.

Safety and Regulatory Notices

The following notices are required to ensure safe and proper use of the Module. Please read them carefully and contact SAT if you have any questions.

This apparatus is suitable for use only in nonhazardous locations.

Caution: Changes or modifications not expressly approved by Wonderware Corporation could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This product has been tested and complies with the specifications for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used according to the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which is found by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

*Reorient or relocate the receiving antenna
Increase the separation between the equipment or devices
Connect the equipment to an outlet other than the receiver's
Consult a dealer or an experienced radio/TV technician for assistance*

FCC ID: OFZSRM1

This Class [] digital apparatus complies with Canadian ICES-003.*

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

IC: 6984A-SRM1

Following is a reproduction of the product label:

Operation

The SRM-1 attaches to a host computer via the supplied USB cable. No other connections are necessary. Use the software provided by Wonderware Mobile Solutions to read and write Wonderware ST-1 tags and other tags employing 134 kHz TIRIS MPT technology. Place the tag on top of the SRM-1 within or near the circle indicated by the text "PLACE TAG HERE".
