Question #1: Confidentiality requests must reference Section 0.459 at a minimum because this section provides the authority for such a request. Referencing Section 0.457 is not mandatory but it is suggested because this section lists what information is normally held confidential in equipment authorization filings. Please revise your confidentiality letter accordingly.

Best Regards,
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
