

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates and can radiate radio-frequency energy, and if not installed and used properly according to instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. Whether this equipment caused harmful interference to radio or television reception can be determined by turning the equipment off and on to see if the harmful interference really comes from this equipment. The user is encouraged to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Disclaimer

No liability is assumed, directly or indirectly, for any damage or loss resulting from the use of this manual or product. The manufacturer assumes no responsibility for data loss, improper use, damage, repairs, defects, battery replacement, or any other costs.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
