Brief Introduction And Models

Thank you for choosing our vehicle. Each vehicle is realistic and unique. We hope your child enjoys this Ride On Car.

Suitable age:	3+ Years	Load Capacity:	Under 50 LBS
Speed:	300mph	Size of car:	37" X 20" X 18"
Battery:	6V 4AH *1	Fuse:	10A
Power way:	Charging type	Charge time:	8-12 Hours
Charger:	Input: 120V AC 60Hz	verage battery life:	Approximately 300 times

How To Operation Your Vehicle

Check all screws, cap nuts and their protective coverings regularly and tighten as required. Check plastic parts on a regular basis for cracks or broken pieces. If damage or excessive wear is detected, do not use the charge or the battery until you have replaced the worn or damaged parts.

- POWER**
Press the power switch when heard a sound "drops" after the car into the working status.
- FORWARD**
1. Press the "Forward-backward switch" on the "Forward" position.
2. Press the "Foot pedal", the vehicle drives forward.
- STOP**
The vehicle will brake automatically, when your child's foot is lifted from the "Foot pedal".
- BACKWARD**
1. Press the "Forward-Backward Switch" on the "Backward" position.
2. Press the "Foot Pedal", the vehicle will backward.

Charging The Vehicle

1. Plug the charger port into the input socket;
2. Plug the charger plug into a wall outlet.

The battery will begin charging.

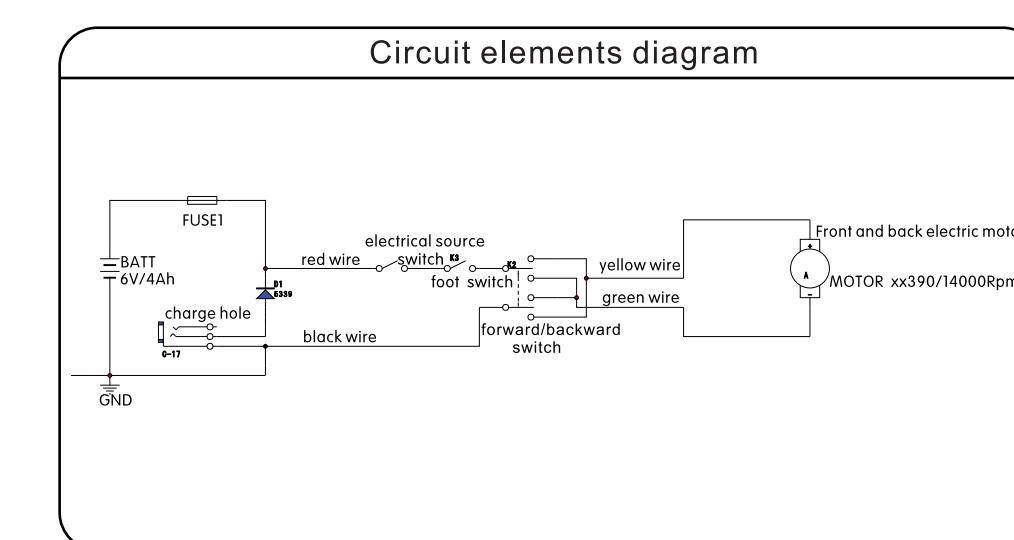

Caring For Your Vehicle

- Do not use in extreme hot or cold conditions. Vehicles should always be far away from hot objects like an oven or heater. Plastic parts may melt.
- Avoid operating the vehicle in wet or snowy conditions. Do not spray the vehicle with water. Do not wash the vehicle with soap and water. Water or moisture in the motors or electrical switches can cause them to corrode and could cause switch or motor failure.
- Avoid operating the vehicle on sand, loose dirt or gravel. Sand, loose dirt or gravel in the motors or electrical switches can cause them to jam, and could cause switch or motor failure.
- The vehicle can be wiped down with a soft, dry cloth for a shiny finish. You can wipe plastic parts with a non-wax furniture polish applied to a soft-cloth.
- Do not use automotive wax, do not use soap and water or spray the vehicle with water.
- Do not modify the electric system. Any repairs must be maintained by professional. Alterations could cause a fire resulting in serious injury and could also ruin the electrical system.
- Approximately every two weeks check the wheels to insure they turn properly and the motor to insure it is working properly. If needed, lubricate moving parts.

Problems And Solutions Guide

The vehicle is equipped with a self-resetting fuse. When the vehicle is overloaded or operated incorrectly, the self-resetting fuse will be cut off for 5-20seconds before becoming operational again. The self-resetting fuse is under the seat (Refer to the picture.)

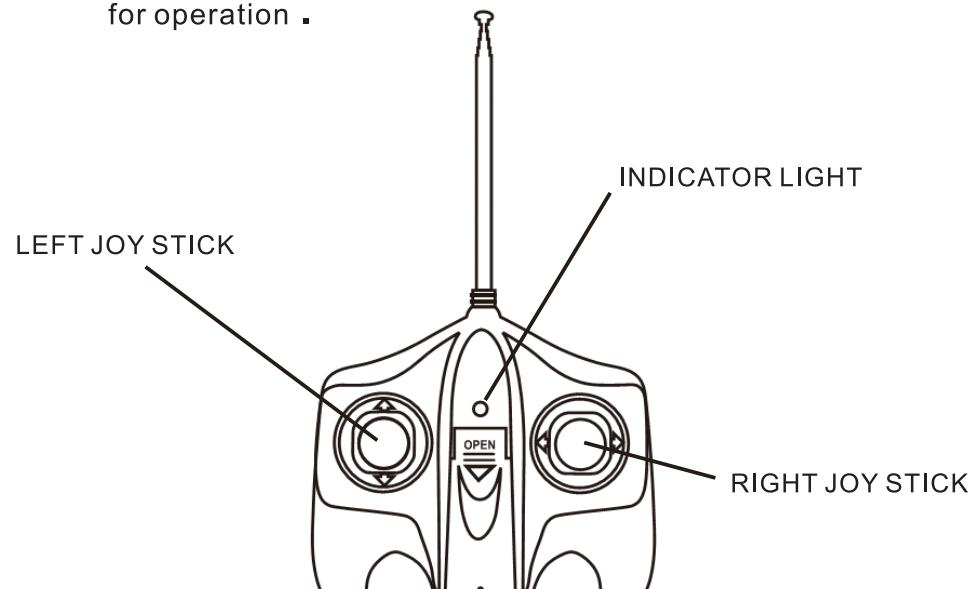

Problem	Check
Vehicle moves slowly	Check if the battery has been recharged long enough for 8-12 hours.
Vehicle does not run	Check if the wires are correctly connected.
Battery won't recharge	Check the fuse. If broken, replace it. Check to see if the charger or the battery has been broken.

Remote operation explanation

⚠ Adult operation required.

! Requires two AAA Batteries (not included) for operation.

WARNING: The adapter be periodically examined for conditions that may result in the risk of fire, electric shock, or injury to persons and that, in an event such conditions, the product should not be used until properly repaired.

Caution:
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
