Subject: Request for Confidentiality of Internal Product Photos  
FCC ID: OJB-ENA4T1

To Whom It May Concern,

Pursuant to the provisions of Sections 0.457 and 0.459 of Commission's rules (47CFR0.457, 0.459), we are requesting the Commission to withhold the following attachment(s) as confidential document from public disclosure indefinitely.

- Schematic Diagram
- Block Diagram
- Part List
- Operational Description
- Tune-up Procedure
- Internal Photos

Above mentioned document contains detailed system and equipment description are considered as proprietary information in operation of the equipment. The public disclosure of above documents might be harmful to our company and would give competitor an unfair advantage in the market.

The request for long-term confidentiality of Internal Photos is made under the special-conditions clause of FCC document *726920 D01 Confidentiality Request Procedures v01r01*, section II.3. As internal photos expose proprietary RF techniques used by our company, we have taken the following steps to prevent the exposure of the product internals:

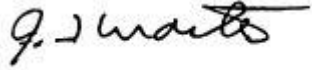

- The unit is completely contained in an opaque, environmentally sealed container.
- The unit is not publicly accessible, as it operates only when professionally installed at the top of large towers not accessible by the public.
- All unit sales, both to resellers and end-users, are covered by NDA prohibiting service of the unit by anyone not covered by a service-agreement NDA. A copy of the sales NDA specifically prohibiting the release of internal photos is provided with this letter.

In additional to above mentioned documents, pursuant to Public Notice DA 04-1705 of the Commission's policy, in order to comply with the marketing regulations in 47 CFT §2.803 and the importation rules in 47 CFR §2.1204, while ensuring that business sensitive information remains confidential until the actual marketing of newly authorized devices. We are requesting the commission to grant short-term confidentiality request on the following attachment(s) for 180 days after the grant as outlined in Public Notice DA 04-1705.

- External Photos
- Test Setup Photos
- User Manual

It is our understanding that all measurement test reports, FCC ID label format and correspondence during the certification review process cannot be granted as confidential documents and those information will be available for public review once the grant of equipment authorization is issued.

Sincerely,

A handwritten signature in black ink, appearing to read "T. Masters", with a stylized flourish at the end.

Tony Masters  
CTO
