Dear Sir or Madam:

Qualcomm, Inc. Wireless Infrastructure Division was purchased by Ericsson Wireless Communications, Inc. effective May 24, 1999. I was Qualcomm's infrastructure regulatory manager and I have transferred to Ericsson. We are requesting a change in the FCC ID for the former Qualcomm 800MHz and 1900MHz base stations and pilot beacons. The 3 character prefix is being changed from J9C (Qualcomm) to OJY (Ericsson).

This request is for FCC ID OJYKAG3, an 800MHz outdoor cellular pilot beacon. The design of the base stations and pilot beacons are unchanged. In addition, the manufacturing location, equipment, processes, and personal remain unchanged. However, we will be changing the branding, trade dress, and model numbers to Ericsson's corporate standards.

The following exhibits are attached, and a separate electronic submission will be made for each FCC ID.

- Exhibit 1: FCC ID Change Matrix
- Exhibit 2: FCC ID Label
- Exhibit 3: Photograph showing location of FCC ID label
- Exhibit 4: Front View of Pilot Beacon

Sincerely,

Donald F. Kimball  
Regulatory Senior Staff Engineer/Manager
