Notice\_content

-----  
Question #1: Please provide necessary bandwidth information by using Carsons rule (  $2M+2D$  ).

$M=3\text{KHz}$  for commercial class telephone and this EUT has a cut of frequency response at  $2.8\text{KHz}$

$D=1.91\text{KHz}$  nominal

So  $2M+2D=2*3+2*1.91=9.82\text{KHz}$

Question #2: Emission Mask plot: Please indicate the emission mask limits in accordance 95.635(b) paragraph 1,3,7 on the plot.

Due to the miss-upload we supplied the wrong plot. We will upload new emission mask plot immediately.

Question #3: The user manual should have "CAUTION STATEMENT" to alert users that specific conditions are necessary for satisfying FCC RF exposure compliance. Suggest wordings to this device may be " Caution :

\* To maintain compliance with the FCC's RF exposure guidelines, hold the transmitter and antenna at least 2 inches (5 cm) away from your face, and speak in a normal voice. Point the antenna up and away from your face.

\* If you were the handset on your body while using the headset accessory, use only the supplied belt clip for this product and when transmitting, take it out of the belt to ensure that the antenna is at least 1 inch (2.5 cm) from the body.

\* Use only the supplied antenna. Unauthorized antennas, modifications, or attachments could damage the transmitter and any changes or modifications not expressly approved by the party responsible for the compliance could void the user's authority to operate the equipment.

Best Regards

Mike Kuo / TCB Certifier

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
