Re: FCC ID: ONTJETIDC24US

To Whom It May Concern:

The following application is submitted on behalf of our client, Esprit Model, for evaluation of their model JETIDC24US for certification under FCC Part 15.247.

The Esprit Model FCC ID: ONTJETIDC24US is a 2.4 GHz / 900 MHz transceiver for remote control toys. 2.4 GHz transmission is performed through two transceiver boards equipped with two antenna ports on each board. The 2.4 GHz transceivers and antennas do not transmit simultaneously, but alternate based on receive signal strength. The 900 MHz transceiver board, on the other hand, provides one antenna port. This transceiver is used as a back-up when communication in the 2.4 GHz band cannot be sustained.

The equipment was evaluated in full to the aforementioned test requirements for both transceivers and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
