Re: FCC ID: ONTJETIR5US

To Whom It May Concern:

The following application is submitted on behalf of our client, Esprit Model, for evaluation of their model JETIR3US for a Class II Permissive Change under FCC Part 15.247 to add a new model variant to the FCC ID: ONTJETIR5US.

The model JETIR3US as an additional model variant to the models listed under FCC ID: ONTJETIR5US. The PCB for the model JETIR3US is identical to that of the models listed under FCC ID: ONTJETIR5US. The JETIR3US differs from the other models by the number of I/O ports, by the antenna cable length, the enclosure material and by a reduction of the RF output level for the last three channels (2470 MHz, 2475 MHz and 2480 MHz).

The FCC ID: ONTJETIR5US was tested for radiated emissions for the model JETIR3US to the aforementioned test requirements and was found to be in compliance.

Sincerely,
