Re: FCC ID: OOSNRMH902

To Whom It May Concern:

The following application is submitted on behalf of our client, L3 Nova Engineering, for evaluation of their model MH902 for certification under FCC Part 15.247.

The MH902 is a frequency hopping transceiver designed to operate in the 902 – 928 MHz frequency band. The MH902 is professionally installed and limited to the antennas and cable configurations described in this filing.

The MH902 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
