

18 January 2007

Equipment Authorization Division
Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

To whom it may concern

Transfer of Control

Pursuant to Sections 2.929 and 2.933 of the Commission's rules, we hereby submit details of a Transfer in control for a Grant of Authorization based on a Change in Identification application as described below.

Original Identification: KIN915B
Original Date of Grant : 09/25/2006

New FCC ID: OOX-915B

The Change in Identification is based on acquisition by Vecima Networks of the product line certified under FCC ID: KIN915B from WaveWireless Corporation. Vecima Networks will be the responsible party for all the products identified under this filing.

The product with the new FCC ID is identical in design and construction and will be manufactured from the exact design drawings and circuit board layouts. The original test results and documentation therefore continue to be representative of and applicable to the new equipment.

Photographs of the exterior of the new equipment are provided showing the location and content of the new label.

Should you require any further information please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Lawrence Gordon", is written over a light blue horizontal line.

Lawrence Gordon
Senior Technical Design lead
Vecima Networks Inc
