Subject: Class II Permissive Change filing

Dear Sir/Madam,

Summation Research, Inc. submits a Class II Permissive Change request addressing additional signal transmission capability for the land mobile radio with FCC ID OQW-STR1820. This is to verify continued compliance with applicable FCC regulations when operating in a Fast FSK modulation mode. This mode utilizes signaling frequencies that differ from the frequencies used in the prior application and approval.

Please let me know if you have any question or need additional information.

Best regards,

Thomas Drago
Vice President
