

CALL MATE™ NEW FM Dual-Band Stereo

UNIVERSAL CELLULAR HANDS-FREE KIT

INSTRUCTIONS

Turn on the ignition of your car. Plug the Call Mate™ into your vehicle's cigarette lighter socket. The power indicator will light up.

Clip the other end of the Call Mate™ to the speaker of your cellular phone. Make sure the suction cup is centered over the speaker.

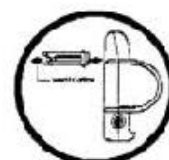

Set your radio to FM 88.7 or FM 106.5 frequency. We suggest that you save both frequencies as pre-set stations. This kit can simultaneously access both frequencies.

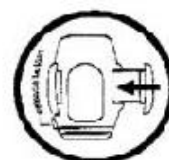

The volume level can be set by adjusting the volume control on either the hands free kit or the car radio. For private conversations, plug the earphone into the jack.

To use the stand with the cellular holder, connect the stand to the back of the holder (lower slot) and stick the bottom of the stand to your vehicle's dashboard.

To use the vent clip with the cellular holder, connect the vent clip to the back of the holder (upper slot) and attach the other end to the ventilator.

Press down on the button of the holder, place your cellular phone on to the holder and gently push the holder's arm inward to securely fit your cellular phone.

compatible with ALL cellular phones

The Call Mate™ Universal Cellular Hands-Free Kit eliminates the dangers and hassles of driving while speaking on your cell phone. Now you can comfortably speak and listen with both hands on the wheel!

CAUTION: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment
