

April 16, 2002

Mr. Joe Dichoso
Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21045

SUBJECT: SB TELCOM CO., LTD.'S APPLICATION FOR CERTIFICATION
FOR THEIR FCC ID: OTVGMRS1100

CONFIRMATION #: EA479274
CORRESPONDENCE REFERENCE #: 22571

Dear Joe:

Per your request of 4/9/01 –

1. I've uploaded the contents of the informational insert that the applicant will include inside the box.
2. The manufacturer has questioned the request for a SAR report since the highest output power measured was 0.8 Watts. We thought that PTT radios with an output power of 1.5 Watts and above were required to be tested for SAR. They have modified their tuning procedure to match the measured output power.

Should you have any questions or require any further information with regards to this, please advise.

Regards,

Sharon A. Hoffman
