

DEVELOPED FOR THE BEGINNER AND THE ADVANCED OUTDOORS PERSON IN MIND

# Universal Game Caller

with Wireless Controller

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- \* Reorient or relocate the receiving antenna.
- \* Increase the separation between the equipment and receiver.
- \* Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- \* Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

DEVELOPED FOR THE BEGINNER AND THE ADVANCED OUTDOORS PERSON IN MIND

# Universal Game Caller

with Wireless Controller

Developed for the beginner and the advanced outdoors person in mind, this innovative 3-piece sound device will be beneficial to hunters, photographers, naturalists, bird watchers and anyone else interested in the great outdoors. Our Universal Game Caller features a unique interchangeable sound card system, by simply replacing one sound card with another. Five sounds per card. Cards Sold Separately.

Great range of sound cards available from Red deer; Sika deer; Mallard duck; Predator (FOX); Whitetail deer; Canadian Geese / Paradise Duck plus many more. All sounds are either authentic game animal/bird recordings or produced by World Class Callers. Check out our website for newly released sound cards.

This Game Caller is not waterproof so please avoid contact with water. Under damp conditions, place in pocket or plastic bag out of the weather. Avoid harsh impacts.

Accessory Speaker: Check out our 8 watt Game Call Amplified Sound Speaker, to enhance the sounds and volume.

## Universal Game Caller with Wireless Controller
