To: Timco Engineering, Inc.  
849 NW State Road 45  
Newberry, Florida 32669 – United States

**Subject: FCC Class II Permissive Change request for colocation consideration.**

This document is a request to apply for FCC Class II Permissive Changes on our RF module previously Granted/Certified under the following ID:  
FCC ID: OVL-BL652

This module will be in colocation with another RF module Granted/Certified under the following ID:  
FCC ID: OVL-RF24GHZ

As a consequence a new RF exposure calculations (Mobile & Portable limb) have been performed in order to check the compliance with FCC rules.

No hardware and software modification have been performed on the radio modules described above.
