## User Manual

Think you can make that shot? Look out! You've been blocked! Our revolutionary new Technology uses a hand that can block the best of shots! A real challenge, this game can be played against the clock or with multiple players. But look out for that hand! For single play, it randomly blocks your shot. Ready for one-on-one? Your opponent can use the remote control to actively block your shot. Sound effects provide real game environment with crowd cheering, musical fan fare and also tells if you've made that two or three point basket! LED scoreboard keeps track of your game. Comes with electronic scoreboard with blocking hand, remote control, 1 basketballs and carrying case.

- Unique "Hand-Blocking" Defensive Action
- "Hand-Blocking" Action Plays in 2 Modes: Automatic or Manual
- 5 Realistic Basketball Sounds
- Electronically Play & Keep Score for 2 Different Games:
- One on One and Against the Clock
- Keeps Score for 1 or 2 Players
- Remote Control puts All the Electronic Functions in the Palm of Your Hand

**Warning :** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Noted : This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful Interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ☐ Reorient or relocate the receiving antenna.
- ☐ Increase the separation between the equipment and receiver.
- ☐ Correct the equipment into an outlet on a circuit different from that to which the receiver is needed.
- ☐ Consult the dealer or an experienced radio/TV technician for help.
