November 15, 2000

Federal Communications Commission,  
Attention: Errol Chang  
Via Electronic Filing

Applicant: NOKIA MOBILE PHONES (Germany)  
Equipment: FCC ID: OW3BT101 EA98731  
Reference: Corres. 16224 9/21/00

Errol: The following are the answers to your questions, i.e

1. Peak conducted power measurement is 1.26 mw.
2. The Applicant will use this device ONLY in products which will have to be tested again for compliance. Would limited modular approval (LMA) be available for this device?
3. MPE tests were conducted FOR INFORMATION ONLY. It is our understanding that the final operating configuration will determine if routine evaluation for RF Exposure either to SAR or MPE limits will be required.
4. Attached please find the Applicant's response to this item.
5. Photos of the antennas are provided here.
6. Attached please find external photos of the device provided by the Applicant and photograph of the test setup.
7. Please see the information regarding the MANUAL as provided by the Applicant. As advised, the device will only be used in NOKIA's products.

We trust the foregoing and attached now meet the requirements of the Commission.

We look forward to an early resolution of this submission.

Personal regards,

MORTON FLOM, P. Eng.
