2. NEEDED CHANGES FOR HF-2W LABEL VARIANT 1 (EURO1, EURO2, US)

The following steps should describe what changes needs to be done from the existing CK-1W typelabel:

2.1 General

Type designator to be updated from HF-1W to HF-2W

2.2 Czech

No label needed anymore, so Ccz can be removed

2.3 Poland

No label needed anymore (CLBT....)

2.4 Russia

PCT ME 96 label to be added

Size: No limitations but readable

Please send Russia type label allways to Anita Timonen for approval before implementation

2.5 New Zealand

Remove Z276, as this is part of APAC typelabel

2.6 China

To be removed, as China get's separate variant

2.7 US

FCC to be changed to "FCC ID: OW3HF-2W"

~~Additional text to be added probably~~

~~This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.~~

~~Size: No limitations but readable~~
