Dear Dennis,

Here is the answer to the comment related to application OW3RM-256\_ATCB005337:

1 Please adequately justify why or how RM-179 data applies to and is representative  
of RM-256 with the associated component removals.

All removed components were located inside metal shielding.

The shieldings are left intact and all disconnected wires have been terminated with nominal resistance.

Best regards,

Guido
