Dear Dennis,

Please find my answers to your comments below:

- 1) USB connector
RX-42 is a handset integration product installed in a car within the car manufacturing process.
FCC Part 15.103 excludes the product from FCC part 15B requirements.
- 2) OW3 Grantee Code owner:
The grantee code ownership has been changed from Detlev Aust to me.
I have requested a registration number from FCC to reflect the change on FCC records.
Attached you find the updated authorization letter meanwhile to proceed with the application.

Thanks and best regards,

Guido Paland
