RE: FCC ID: OWDTR-0028-E\_ATCB000817

Attention: Daryl Popowitch / Kathy Grzovic  
I have a few comments on this Application.

1. Please separate the alignment procedure (Tune up) into a separate exhibit.
2. Please verify which emissions designators are for 90.210 designations.
3. It is not clear from the data in the antenna substitution calculation if you used ERP or EIRP. Please note that part 90 devices are ERP. Please clarify and identify the gain used for the substitution antenna as dBi or dBd and please clarify either ERP or EIRP for the powers listed.
4. Please note that mask B item 3 would be -13dBm. The plots shown appear to be in error. Please explain and correct as necessary.
5. Please note that mask C states item 3 would be -13dBm. The plots shown appear to be the 50dBc from item 2 (dBm). Please explain and correct as necessary.
- 6.

A handwritten signature in black ink that reads "Dennis Ward". The signature is somewhat fluid and cursive, with "Dennis" on the top line and "Ward" on the bottom line.

Dennis Ward

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
