RE: FCC ID: OWDTR-0032-E_ATCB001369

Attention: Denis Lalonde

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. In the reason for change letter you state that a crystal in the analog filter board in the site pro shelf has been changed. If this change is to allow the additional emissions designator then this would not be a PC2 as defined in 2.1043 (...changes to the basic frequency determining and stabilizing circuitry [including clock or data rates]...), and would require a new application. Please explain.

A handwritten signature in black ink that reads "Dennis Ward". The signature is written in a cursive, flowing style.

Dennis Ward

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
