

M/A-COM

March 18, 2005

Mr. Andrew Leimer
Federal Communications Commission
FCC Laboratory Division
Equipment Authorization Branch
7435 Oakland Mills Road
Columbia, Maryland 21046

FCC ID: OWDTR-0035-E
CRN: 28646
731 Confirmation Number: EA389381

Mr. Leimer,

With regard to your correspondence of March 17, 2005, the following are your questions and M/A-COM's response.

1) Regarding your answer to question 1. The table of MPE distances for motorcycle mount in the two manuals still mentions radios and powers above 25 W. Please revise. Also, the request photograph could not be located though it appears there is a "corrupted" PDF file on record. Please resend.

Response:

All other bands have been removed from the motorcycle table in the Operator's and Installation manual. Revised copies are submitted as exhibits with this correspondence. Also, the separation distance photograph file is being submitted again.

Myself and the Product Manager's at M/A-COM, hope this satisfies the Commission's needs and a speedy Equipment Authorization Grant is forthcoming.

Thank you for your help.

Sincerely,

Daryl Popowitch
Regulatory Manager
Engineering Project Manager
