Subject: FCC ID: OWDTR-0056-E

Harris seeks application approval for a Class 2 Permissive Change on the M7300 VHF 110W mobile radio to add Part 80 service.

Conducted power remains the same, no PCB changes have been, and no components have been added or removed. The capability has been present in the radio and is now enabled for customer applications.

Updated Operator's manual is included as an exhibit.

Rhein Tech Laboratories, Inc. agent authorization letter, to act on Harris' behalf for this Class 2 Permissive Change filing action, has been provided as well.

Thank you for your kind consideration and timely review.

Sincerely,

A handwritten signature in black ink that reads "Daryl S. Popowitch". The signature is fluid and cursive, with "Daryl" and "S." being more stylized and "Popowitch" being more legible.

Daryl Popowitch  
Regulatory Manager
