Harris seeks application approval for an FCC Class 2 Permissive Change and IC reassessment on the M7300 110W VHF mobile radio.

This change adds P25 Phase 2 emission designators (8K10DXW) for the VHF band. Additionally, Part 22 operations are being added. Conducted power remains the same as well as PCB artwork and the radio enclosure; no new antennas have been added. A test report of compliance measurements has been provided as an exhibit in this filing.

Rhein Tech Laboratories, Inc. agent authorization letter to act on Harris' behalf for this Class 2 Permissive Change application filing, has been provided.

Thank you for your kind consideration and timely review of this product.

Sincerely,

A handwritten signature in black ink that reads "Daryl S. Popowitch". The signature is fluid and cursive, with "Daryl" and "S." on the first line and "Popowitch" on the second line.
