Harris seeks application approval for a Class 2 Permissive Change on the P5500/P5300 800 MHz portable radio.

This change adds P25 Phase 2 emission designator (8K10DXW) to the 800 MHz band. Conducted power remains the same as well as PCB artwork and the radio enclosure; no new antennas have been added, so no SAR evaluation is warranted (previous measured bandwidths are larger than this addition).

Rhein Tech Laboratories, Inc. agent authorization letters to act on Harris' behalf for this Class 2 Permissive Change application filing, have been provided.

Thank you for your kind consideration and prompt review.

Sincerely,

A handwritten signature in black ink that reads "Daryl G. Popowitch". The signature is written in a cursive, flowing style.

Daryl Popowitch
