Subject: FCC ID: OWDTR-0073-E  
IC: 3636B-0073

Harris seeks application approval for a Class 2 Permissive Change Grant and IC Reassessment Certificate on the XG-25P 700 – 800 MHz portable radio family.

This change adds P25 Phase 2 emission designators (8K10DXW) to the 700 and 800 MHz band portable radio. Conducted power remains the same as well as PCB artwork and the radio enclosure; no new antennas have been added, so no SAR evaluation is warranted (previous measured bandwidths are larger than this addition).

Thank you for your kind consideration and timely review of this new product.

Sincerely,

A handwritten signature in black ink that reads "Daryl G. Popowitch". The signature is written in a cursive, flowing style.

Daryl Popowitch
