IC: 3636B-0075

Harris seeks application approval for a Class 2 Permissive Change and IC reassessment on the XG-25M VHF mobile radio.

This change adds P25 Phase 2 emission designators (8K10DXW) for the VHF band. Conducted power remains the same as well as PCB artwork and the radio enclosure; no new antennas have been added. A test report of compliance measurements has been provided as an exhibit. Additionally, Part 22 emission designators have been added for operation under Part 22 authorization.

Rhein Tech Laboratories, Inc. agent authorization letter to act on Harris' behalf for this Class 2 Permissive Change application filing, has been provided.

Thank you for your kind consideration and timely review of this product.

Sincerely,

Daryl Popowitch
Regulatory Manager
