FEDERAL COMMUNICATIONS COMMISSIONS
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

**Subject: FCC Class II Permission change for FCC ID: OWDTR-0117-E
Original Grant Date: 03/31/2013**

Dear Sir/Madam,

This is to request a Class II permission change to our Digital Portable Radio, Model: HD-PEU1B(FCC ID: OWDTR-0117-E), the device is identical to the previously certified except for the changes as below for details:

1. Adding antennas, batteries and audio accessories, and the detailed information for accessories list are submitted as attachments.
2. We would like to use Report No: RSZ130328003-20A1 as a base and create to a new report under our company name and product model.
3. To aid equipment authorization in other countries which accept the United States FCC Grant for Certification, Harris Corporation is requesting that the FCC lists the frequencies 400MHz-470MHz under FCC Rule Parts 22,74,80 and 90 on the FCC Grant.

Harris Corporation Attests that the radio will not be marketed to USA users with the frequency band which is not allowed by the rule part 22,74,80 and 90.

Per the FCC's KDB634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies.

Also, equipment programming is the responsibility of Authorized Service Personnel, the radio complies with 47 CFR Part 90.203(e), in that the operator cannot directly program the transmit frequencies using the normally accessible external controls.
