Attestation

November 12, 2021

American Certification Body, Inc.
6731 Whittier Avenue
Suite C110 McLean,
VA 22101

To Whom It May Concern:

With regard to 90.203(j) maximum channel BW of 12.5, Harris attests that the two emission designators of 18K8D1W and 12K5D1W meet the efficiency standard of one voice channel per 12.5 kHz of channel bandwidth and are capable of supporting a minimum data rate of 4800 bits per second per 6.25 kHz of channel bandwidth.

With regard to 90.265(a)/90.265(a)(5) maximum authorized BW of 11.25 kHz, in reference to interference complaints for existing operations that exceed 11.25 kHz bandwidth, this would be handled on a case-by-case basis.

Thank you,

A handwritten signature in black ink that reads "Thomas D. Camper, Jr." in a cursive script.
