Attestation

XL-85M VHF – OWDTR-0176-E

Software Bill of Materials

1. Software Bill of Materials (list of all sw that L3Harris loads into the radio)
 - XLP R21X005
2. L3Harris attests that the XL-85M VHF device is compliant to the requirement that no software is produced by entities on the Covered List as follows:
 - L3Harris device uses no software that is produced by the entities on the Covered List.
 - L3Harris' device is not capable of storing or running covered list software and that the device is not capable of connecting to the internet or another device that may have the software.
 - Explanation supporting this attestation:
 - L3Harris develops the software that is used in the XL-85M VHF device.
 - L3Harris has designed the XL-85M VHF using a proprietary hardware design which only operates using L3Harris' proprietary software. The XL-85M VHF has no method or provision to alter, download and store/run device level software.

Sincerely,

Thomas D Camper, Jr.
