William Graff  
AmericanTCB  
6731 Whittier Avenue  
McLean, VA 22101

Dear Mr. Graff,

In reply to your request, the following M/A-Com Private Radio Systems Applications shall use the identical emissions designators listed in the original FCC Certifications:

OWDTR-197-A2  
OWDTR-329-A2  
OWDTR-307-A  
OWDTR-307-A2  
OWDTR-307-B2  
OWDTR-307-C2  
OWDTR-307-D2  
OWDTR-307-X2

The Class II change approvals are requested because of the addition of a new baseband controller (SitePro). This change does not affect any of the modulating characteristics, power output or data rates. As such, the existing emissions designators are invoked for the Class II changes approvals.

Sincerely,

Michael Violette  
MFV/Iv
