American TCB, Inc.  
6731 Whittier Avenue  
Suite C110  
McLean, VA 22101

Subject: FCC ID: OWDTR-329-A2; IC: 3636194215  
800 MHz MastR III base station

M/A-COM wishes the subject equipment processed for a Class II Permissive Change to the Equipment Authorization Grant.

The PA component used in the amplifier portion of the station is no longer available. Another manufacturer's device has been identified, which is a drop-in replacement. No PCB artwork changes have been made; no schematic changes have been made; the parts list is updated with the new device. The parts list, lab test report and photographs of the PCB assembly are submitted as exhibits.

Confidentiality letter and Solectron agent authorization letter, to act on M/A-COM's behalf for this change request, have been provided as exhibits as well.

Thank you for your kind attention to this matter.

Sincerely,

A handwritten signature in black ink that reads "Daryl S. Popowitch".

Daryl Popowitch  
Regulatory Manager,
