21.5" LCD Tablet Monitor Series

Safety Information

Read all of these instructions Save these instructions for later use, please.

1. Follow all warnings and instructions marked on the monitor.
2. This monitor should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supplied in your home, consult your monitor dealer or local power company.
3. This monitor is equipped with a three-wire grounding type plug, a plug having a third (grounding) pin. This plug will only fit into grounding-type power outlet. This is a safety feature. If you are unable to insert the plug into the outlet, contact your electrician to replace your obsolete outlet. Do not defeat the safety purpose of the grounding-type plug.
4. The socket outlet shall be near the equipment and shall be easily accessible. Do not overload wall outlets and extension cords as this can result into fire or electric shock.
5. Do not allow anything to rest on the power cord. Do not locate this monitor where the cord will be abused by persons working on it.
6. Do not place this monitor on an unstable cart, stand, or table. The monitor may fall, causing serious injury to a child or adult and serious damage to the appliance. Use only with a cart or stand recommended by the manufacturer or sold with monitor. Wall or shelf mounting should follow the manufacturer's instructions, and should use a mounting kit approved by the manufacturer.
7. Slots and openings in the cabinet and the back or bottom are provided for ventilation, and to insure reliable operation of the television receiver and to protect it from overheating, these openings must not be blocked or covered. The openings should never be blocked by placing the monitor on a bed, sofa, rug, or other similar surface. This monitor should never be placed near or over a radiator or heat register. This monitor should not be placed in built-in installation such as a bookcase unless proper ventilation is provided.

II | Safety Information

8. Do not use this monitor near water. For example near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool, etc.
9. Unplug this monitor from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
10. Never push objects of any kind into this monitor through cabinet slots as they may touch dangerous voltage points or short out parts that could result in a fire or electric shock. Never spill liquid of any kind on the monitor.
11. For added protection for this monitor, when it is left unattended and unused for long periods of time, unplug it from the wall outlet. This will prevent damage to the monitor due to power-line surges.
12. Do not attempt to service this monitor yourself since opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

4. Product Specifications

4.1 Monitor

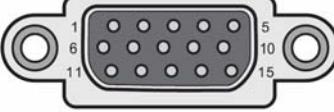

Item	Specification	
LCD Display	Display type	21.5" TFT Wide / LED B/L
	Dimension	476.64mm(H)*268.11mm(V)
	Resolution	1920×1080
	Pixel pitch	0.24825×0.24825 mm
	Display colors	16.7M
	Viewing angles	right 85°, left 85°, up 80°, down 80°
Connector	Input	D-sub 15-pin (analog RGB) HDMI output
	Output	D-sub 15-pin (analog RGB)
Power supply	Type	External adapter
	Adapter in/out	Input 100-240VAC, 50/60 Hz, Output 12VDC 4A
	Rating input	DC12V/3A
Power Management	Max consumption	30W
	Energy efficiency	≥ 0.85W
	Power off	≤ 0.5W
PnP	DDC	DDC1/3/CI
Physicals	Stand adjustment	Tilt 10°~40°
	Mounting	VESA 75mm
	Unit dimension	454.4 x 361.8 x 26 mm
	Unit weight	Net 4.5kg, Gross 5.6kg
OS	OS compatibility	Windows 7/XP/VISTA, MAC 10.2.8 or above
Environmental	Temperature	Operating: 0~40°C, Storage: -20~60°C
	Relative humidity	Operating: 20~80%, Storage: 10~90%

4.2 Tablet

Item	Specification	
Tablet	Resolution	2048 Lpi
	Tracking speed	138 DPS
	Pressure sensitive	1024 levels
	Accuracy	±0.5 mm(center), ± 3 mm (edge and corner)
I/O port	Communication	USB
Pen	Type	Wireless Active mode, rechargeable battery built in
	Charger	USB Charger
	automatic power off (APO)	Automatic power off actives if operating paused and over 20 minutes. Click pen nit could recall active status

Note: Specification may be subject to change without prior notice.

4.3 VGA Connector

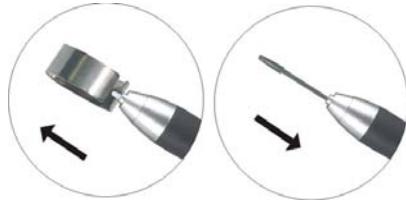

Fig	Pin and Definition		
	1) Red signal	9) 5VDC	
	2) Green signal	10) Ground	
	3) Blue signal	11) Ground	
	4) Ground	12) SDA	
	5) Detection	13) H sync	
	6) Red ground	14) V sync	
	7) Green ground	15) SCL	
	8) Blue ground		

5. Appendix

Appendix A. Replacing the Pen tip

When the tip gets too short or develops a sharp edge, you can replace it with the spare tips. Please follow below step:

- 1) Use the tip replacement tool to pull the old tip straight out of the pen.

Appendix B. Factory set display modes

No.	Resolution	H-Freq (kHz)	Refresh rate (Hz)
1	720×400	31.47	70
2	640×480	31.47	60
3	640×480	37.86	72.8
4	640×480	37.5	75
5	800×600	37.88	60.3
6	800×600	48.08	72.2
7	800×600	46.87	75
8	1024×768	48.36	60
9	1024×768	56.48	70.1
10	1024×768	60.02	75
11	1280×1024	63.98	60
12	1280×1024	79.98	75
13	1440×900	55.94	60
14	1440×900	70.64	75
15	1600×900	60.0	60
16	1680×1050	65.3	60
17	1920×1080	67.5	60

Note: Factory set display modes may be subject to change without prior notice.

FCC NOTE:

THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THIS EQUIPMENT. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: 1. This device may not cause harmful interference, and 2. This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
