

## **Expository Statement**

The Toro's EZ-Remote Transmitter was tested with EZ-Remote Receiver. These models represent the Irritrol Systems' KwikStart Transmitter and KwikStart Receiver. The only different between the EZ-Remote and the KwikStart is the decal that identifies them as a Toro brand product or an Irritrol Systems brand product, respectively.

The transmitter and receiver are composed of a Control PCB Assembly and an axial leaded, AML, RF Module with the following characteristic:

Rated RF in watts - 20mW Max.  
Frequency range - 433.92+/- 0.5 MHz.
