

Operation Principle

1. S2 and S3 Buttons to set FM frequency, step=0.2MHz
2. Range of FM frequency: 88.1MHz-107.9MHz
3. MCU(MPC82L54S) control Transmitter IC to Transmitting Data.
4. 7.6MHz crystal
5. Power source: 1x AAA alkaline Battery LR03 1.5V
6. Antenna is printing antenna
