FCC Application Processing Branch

Re: FCC ID OYOPWTB

Applicant:	Alcatel
Correspondence Reference Number:	13805
731 Confirmation Number:	EA97325
Date of Original E-Mail:	05/03/2000

Please address the following RF safety issues. Place your reply in the RF exposure info folder.

Alcatel, EA 97325 -

1. This filing has no test report (exhibit 6).

Response: The test report was uploaded on April 25. I did receive a confirmation that the file uploaded ok. If you still do not have the test report I can upload it again.

2. RF exposure exhibit indicates RF exposure statement and installation instructions will be included for satisfying mobile transmitting device operating requirements. No manual has been uploaded, please submit manual with the appropriate RF exposure info.

Response: The installation manual for the base station has been uploaded. This installation manual contains the RF exposure statement.

3. Please clarify how will the antennas (3 proposed) will be installed/attached/connected to the device.

Response: The antennas will either be installed in the factory or by trained installation personnel, the user will not have the option to change the antenna. The antennas

connect to the main board via SMA connectors (see Exhibit 11).
