

# Car Wireless Hands Free device

YJ98-002

## Features:

1. This incredible new product is adopted with 3-D sound coding technology, which maintains the hi-fi effects of MP3,MD,CD and TV.
2. Functioning with pulse-wide adjustable technology it is enabled with 4-5V DC power source, which is compatible with MP3,MD, CD and TV.

## Electronic Characteristics:

### FM Radiation Section

Operating Distance: up to 30M.  
Separation Degree from right and left:  $\geq 60\text{dB}$ .  
Working Voltage: 8-24V  
Working Current: 20mA.  
Input Frequency: 20-18KHz  
Output Frequency : 107.8 MHz  
Output RF Power:  $\leq 10\text{mW}$

### DC Power Section

Working Voltage: 8-24V  
Rated Output Voltage: 4.5-0.1+0.5V  
Static Current: 12mA  
Rated Power: 2W

## Directions of Use:

1. Simply plug the unit into the cigarette lighter in your car, then connect the earphone socket. Adjust the volume to the middle-value position.
2. Start the car radio and set an acceptance frequency of packaged logo and then adjust to your acceptable volume.
3. Use the memorizing function of radio to lock the clearest frequency for music, it will be more convenient for using it next time.

Note:

1. The default value has been set in the factory.
2. The Volume can be adjusted through that of AV device and that of radio.
3. It is not suggested to place this unit in an area, which has large temperature differentials such as direct sunshine or extreme cold weather etc.
4. Disconnect the power when not used.
5. Please insert the DC plug and audio-plug into MD or CD before operating.

#### Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution:. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
