

Cover Letter-Modular Approval**FCC ID: OZJWLIS-01SM****Data: May. 27, 2013**

Gentlemen:

There's an Audio BT module that would like to have your authorization as a modular approval. The specific product as below, Audio BT module, with its designed features and specified description, meets special requirements for limit modular approval on FCC Public Notice DA 00-1407 Released: June 26, 2000 by cross-reference list below.

Company	Taiwan Wlink Electronic Technology Co.,Ltd
Model Name	Audio BT module
Model Number	WLIS01-SM
FCC ID	OZJWLIS-01SM

Requirement of Public Notice DA00 - 1407	Reference to WLIS01-SM
1. The modular transmitter must have its own RF shielding.	The module doesn't have its own RF shielding. Please see external photo.pdf
2. The modular transmitter must have buffered modulation/data inputs.	The modular has buffered data inputs, it is integrated in chip WL-3801. Please see schematic.pdf
3. The modular transmitter must have its own power supply regulation.	The modular has its own power supply regulation in circuits internal to the WLIS01-SM. Please see schematic.pdf
4. The modular transmitter must comply with the antenna requirements of Section 15.203 and 15.204(c).	The WLIS01-SM meets the FCC antenna requirements. It has a PCB antenna. Please see external photos.pdf
5. The modular transmitter must be tested in a stand - alone configuration, i.e., the module must not be inside another device during testing.	The WLIS01-SM was tested in a stand - alone configuration via a USB transfer COM PCB. Please see setup photos.pdf
6. The modular transmitter must be labeled with its own FCC ID number, and, if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	The label position of WLIS01-SM is clearly indicated. Please see the label.pdf Please notice that if the FCC identification number is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module. This exterior label can use wording such as the following: "Contains

	Transmitter Module FCC ID: OZJWLIS-01SM” or “Contains FCC ID: OZJWLIS-01SM”
7. The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	The WLIS01-SM is compliant with all applicable FCC rules. Detail instructions are given in the Users Manual. Please see user manual.pdf
8. The modular transmitter must comply with any applicable RF exposure requirements. For example, FCC Rules in Sections 2.1091, 2.1093 and specific Sections of Part 15, including 15.319(i), 15.407(f), 15.253(f) and 15.255(g), require that Unlicensed PCS, UNII and millimeter wave devices perform routine environmental evaluation for RF Exposure to demonstrate compliance. In addition, spread spectrum transmitters operating under Section 15.247 are required to address RF Exposure compliance in accordance with Section 15.247(b)(4).	The maximum output power of this module is 0.44dBm with 1.5dBi only, therefore this module comply with SAR exemption threshold according to KDB447498V05. Please see SZEM13050023 3302. pdf

Thank you.

Sincerely,

By: Lu Zhou
