REQUEST FOR CONFIDENTIALITY

Pursuant to 47 CFR 0.459, Nasco requests that a part of the subject application be held confidential. This comprises Exhibits

- (5) Schematics
- (10) Parts List (Part of Exhibit only)

Nasco has spent substantial effort in developing this product and it is one of the first of its kind in industry. Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

If there are any questions regarding this request, please contact me at the above address or call 734-483-4211, fax 734-647-2106 or e-mail liepa@umich.edu.

Sincerely,

STATEMENT OF MODIFICATIONS

During pre-testing, the fundamental emission was determined to be greater than the allowable limit. Working with the manufacturer the test lab changed the resistor values in R9 and R10 to 100 Ohms and 47 Ohms, respectively. These changes brought the DUT emissions into compliance with FCC and IC regulations. These changes are reflected in the provided Bill of Materials and Schematics. (Also see Section 3.1 of the attached Test Report).

Attn: Director of Certification

Authority to Act as Agent

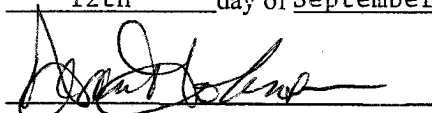

I appoint Valdis V. Liepa to act as our agent in the preparation of this application for equipment certification. I certify that submitted documents properly describe the device or system for which equipment certification is sought. I also certify that each unit manufactured, imported or marketed, as defined in Industry Canada's regulations will have affixed to it a label identical to that submitted for approval with this application.

For instances where our authorized agent signs the application for certification on our behalf, I acknowledge that all responsibility for complying with the terms and conditions for Certification, as specified by American TCB, still resides with The Aristotle Corporation, 901 Janesville Avenue, Fort Atkinson, WI 53538.

Agency Agreement Expiration Date: (optional)
