Subject: Declaration letter for indoor Access Point 6ID
FCC ID: P27-OWR7

To whom it may concern:

We, Sercomm Corporation, attest that this device under FCC ID P27-OWR7 complies with device protocol requirements and operational restrictions: for indoor Access Point 6ID.

1. Protocol attestation statement:

Statement describing the method the indoor access point uses to control the associated client/subordinate power control.

An 11ax/11be IEEE device's Transmit Power Envelope element has information fields for power limits for connecting client/subordinate devices. The TPE information is contained in this device signals and used by connecting client/subordinate to ensure that it knows the regulatory TX powers it is allowed to transmit at. There is a regulatory info field in this device beacon and probe response frames which details this device type when the client/subordinate associates to this device.

2. Statement acknowledging device restrictions:

- a. Low-power indoor Access Point. Access Point operating in the 5.925-7.125 GHz band shall be supplied power from a wired connection, has an integrated antenna, is not battery-powered, and does not have a weatherized enclosure.
- b. This device's operation will not be allowed on oil platforms, cars, trains, boats, and aircraft, except that operation of this device is permitted in large aircraft while flying above 10,000 feet
- c. Indoor access points are prohibited for control of or communications with unmanned aircraft systems, including drones.
