**Applicant:** Arrista Technologies Inc.  
**Equipment:** CR500 Bi-Directional Cellular Signal  
Amplifier

**Exhibit of Confidentiality**

**To Whom It May Concern:**

**Arrista Technologies would like the following submitted exhibits treated as confidential material:**

1. Amplifier Schematic
2. Amplifier Block Diagram
3. Amplifier Parts Listing

**The amplifier design, specifically, the gain control circuitry is of novel design and a US patent has been filed on it. As there is no other amplifier design that incorporates the gain control function the way the CR500 does, we believe that we have a competitive advantage over competing designs out in the market place.**
