Re: Permissive Change Request to add a Remote Antenna to FCC ID:P3HNSPH3

Gentlemen:

Please note this is a request to add an additional antenna to a previously certified device FCC ID: P3HNSPH3.
The only difference in the original unit and the modified unit is the addition of a plug in
type remote antenna. The antenna consist of a series 27 pf cap with a series 330 ohm resistor.

Sincerely,

Phillip Inglis
Agent for WNC

Re: Permissive Change Request to add a Remote Antenna to FCC ID:P3HNSPH3

Gentlemen:

This is to confirm that in car testing is not required for the referenced FCC ID. This was confirmed in conversation with Ray Laforge and Dr. Rashmi Doshi on Monday.

Sincerely,

Phillip Inglis
Agent for WNC
