

FCC Laboratory  
7435 Oakland Mills Road  
Columbia, MD 21046

July 27, 2007

Attention: Application Examiner / Reviewing Engineer  
Subject: Confirmation Letter for FM Transmitter  
Applicant: Ki Ryung Electronics Co., Ltd., FCC ID: P3HSP5

To whom it may concern,

We, Onetech Corp., would like to answer following questions for requesting by the TCB, Compliance Certification Services Inc on behalf of our customer, Ki Ryung Electronics Co., Ltd.

1. How does this device operate?  
→ It shall be operated in home or car.
2. Provide information on the device and its antenna  
→ It is a digital satellite radio that has a function for transmitting of FM broadcasting frequency range. The external FM antenna which shall be supplied by the responsible party shall be used according to user's guide.
3. How is it installed?  
→ When installing the vehicle dock in your vehicle, choose a location in your vehicle where it will not block your vision, interfere with the vehicle control, or obstruct the air bag. This device is suction cup mounted or vent mounted.
4. What test procedure was used?  
→ ANSI C 63.4: 2003
5. If tested in a car, how was it configured/tested?  
→ It was tested in a car. In site testing was performed for three vehicles based on the following vehicle sizes; small, medium and large.
6. Was the tuning range properly verified?  
→ Yes, the low channel is 88.1MHz, and the highest channel is 107.9MHz. Please refer to the statement and test data on page 29 and page 30 of the test report.
7. Was the bandwidth properly tested with maximum audio input?  
→ The EUT does not have an audio input port, so the EUT transmitted signal that was generated by satellite signal generator with maximum audio level.

If you have questions or need further information, please contact the undersigned.

Sincerely,

Y.K. Kwon / Director  
Onetech Corp.
