# Warning

Over exposure to excessive sound levels can damage your ears resulting in permanent noise induced hearing loss(NIHL). Please use the following guidelines established by the Occupational Safety Health Administration (OSHA) on maximum time exposure to sound pressure levels before hearing damage occurs.

> 90dB SPL 95dB SPL 100dB SPL 105dB SPL At 8 hours At 4 hours At 2 hours t 1 hour 110dB SPL 115dB SPL 120dB SPL At half hour At 15 minutes Avoid or damage may occur

#### ↑ Other Notes:

- Do not modify the transmission frequency and increase the transmission power (including the additional radio services during use; if any interference is found, stop using it immediately and take measures to eliminate interference before continuing to use.
- The use of micro power radio equipment must endure interference from various radio services or radiated interference from industrial, scientific and medical equipment.

# Warning

#### ⚠ To protect your earphone:

- Do not place the earphone in a location exposed to moisture, dust, fumes, steam, or direct sunlight.
- Do not place heavy objects or exert pressure on the machine, otherwise it may cause deformation in long-term storage
- Do not over impact the earphone.
- Do not use this earphone in wet places or in bad weather such as rain and snow.
- Do not disassemble or repair the earbuds by yourself.
- . Do not use chemical to scrub the product.
- Adult supervision is required for children under 6 years old.

#### Warning

## Materproof Tips:

## ↑ Statements:

Any use that not specified in the instructions is considered to be a misuse of the product: The product manufacturer does not bear any liability for losses caused by incorrect use or other man-made negligence.

#### FAQ

#### 1.Earbuds can't connect to device:

Please check the following steps

- Whether the device's Bluetooth is turned on.
- Whether the earbud is connected to another device. At this time, you will not be able to find the earbud on the Bluetooth of the new device. Turn off the Bluetooth of the connected device or stay away.

Put the earbud back into the charging case and take out it, you will enter the pairing

#### 2.Only single earbud connected to the device:

Put the earbuds back to charging case,  $\,$  take it again and test whether interconnected  $\,$ successfully

Check whether the power of the earbuds is sufficient.

If the power of the earbuds is too low, it will automatically shut down. At this time, it should be put back into the charging case for charging.

## 3.Interrupt the connection during use:

It may be in an area where Bluetooth signal interference is strong. Please try the following steps

· Turn off the earbud and re-pair.

After the earbud is disconnected from the device, it will automatically search for pairing again. If it fails to connect again, try restarting the earbud.

• Sometimes it may be necessary to forget the earbud in Bluetooth list of the device and then connect Bluetooth again.

#### FAQ

## 4.ANC don't have significant effect:

Active noise cancellation earbuds will achieve better noise cancellation effect in the closed ear canal, please check if it fits snugly

How to fit:

- Choose the right size of ear tips , it is better to have obvious closed feeling after wearing.
- After inserting the earbud into the ear, rotate to adjusting position to the appropriate depth, and at the same time, pull the ear slightly up to make the earbud deeper into the ear canal.

Many people have different size ear canal. Maybe you need to wear different sizes of ear tips for the left and right ears.

## FAQ

## 5. Handling of abnormal problems:

If there is an accidental disconnection /restart/no-sound during use, can't finding the cause after investigation, please try the following steps to restart

- Turn off the Bluetooth function of the device.
- · Put the earbud in the charging case and close the case.
- . Turn on the Bluetooth function of the device.
- · Take off the earbud and pair it again.

# **FCC Compliance Statement**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

# FCC Compliance Statement

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement: The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

# **IC ID Statement**

#### -English: "

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) this device may not cause interference, and

(2) this device must accept any interference, including interference that may cause undesired operation of the device."

#### - French:"

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée

aux deux conditions suivantes :

(1) l'appareil nedoit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.'
