The CDMA Dual band module ( model: DTG2000 ), **FCC ID : P4M-DTG2000** , is seeking FCC Authorization as a modular transmitter. The EUT meets the requirements for modular approval as detailed in FCC public Notice DA00-1407. Compliance to each of the requirements is described below:

Questions are:

1. **“The modular transmitter must have its own RF shielding.”** - The radio portion of the CDMA wireless module has its own RF shielding. The shielding is installed at the factory.
2. **“The modular transmitter must have buffered modulation/data inputs.”** - Please see R0405243Sch for schematics of the module.
3. **“The modular transmitter must have its own power supply regulation.”** - The EUT has its own AC/DC power adapter. It insures compliance with part 15 supplying the module from the host unit.
4. **“The modular transmitter must comply with the antenna requirements of section 15.203 and 15.204(c).”** - The EUT meets the FCC antenna requirements.
5. **“The modular transmitter must be tested in a stand-alone configuration.”** - The EUT was tested in a stand-alone configuration.
6. **“The modular transmitter must be labeled with its own FCC ID number.”** - The EUT is labeled with its own FCC ID number.
7. **“The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacture must provide adequate instruction along with the module to explain any such requirements.”** - The EUT is compliant with all applicable FCC rules.
8. **“The modular transmitter must comply with any applicable RF exposure requirements.”** – The EUT fully complies with RF exposure requirements.
